When you re in the cradle

Am
The rain will fall

C
And wash your dreams

Am
Stars are stars

Dm
And they shine so hard

Now you spit out the sky
Because it s empty and hollow
All your dreams
Are hanging out to dry

Stars are stars
And they shine so cold

G **Am**
I saw you climb

G **Am**
Shadows on the trees

G **Am**
We lost some time

C **G**
After things that never matter

I caught that falling star
It cut my hands to pieces

Where did I put that box
That had my name in it
I saw you climb
Shadows on the trees
We lost some time
After things that never matter

Cards are played
And the clock s real heavy
Say you re numb
Make another day

You came here late
You ve gone home early
Who ll remember now

You ve gone away

G C B
