Yo Yo Man

**A**                    **E**                    **A**    **E**  
Froze to the bone in my igloo home  
**A**                    **E**                    **A**    **E**        **A**        **E**    **A**    **E**  
Counting the days til the ice turns green  
          **A**            **E**            **A**            **E**  
You know when Heaven and hell collide  
          **A** **E** **A** **E** **A**        **E**  
There are no in-betweens

Chorus:

**C**                    **E**                    **C**                    **E**  
Flames on your skin of snow turn cold  
**C**                    **E**                    **C**                    **E**    **C**  
Cold as the wind that blows through my headstone

Break: **Bb** **C** **Em** (3x)    **D** **Bm** (3X)

Collecting the bones of my friends tonight  
Sowing the seeds in a fruitless land  
You know when prayers all hit the ground  
There is no higher hand

I m the yo-yo man, always up and down  
So take me to the end of your tether

Chorus, Break and fade
