

**Dois Mundos**

**Ed Motta**

**Bb**                                                  **C**                                          **F**  
 Tenha fé em tudo que acredita  
**Bb**                                                  **C**                                          **F**  
 Dois mundos distintos são  
**Bb**                                                  **F**  
 Deixe o seu destino agir  
          **Dm**                          **F** **Bb**                                  **C9**  
 Guiar seu coração

**Fm**                                                          **C#**  
 Um paraíso sem igual  
**Fm**                                                          **G#**  
 Num mundo cheio de amor  
                          **C#**                                  **Bb**                          **F**  
 Viver assim traz tanta paz

**Bb**                                                          **C**                                          **F**  
 As pegadas sobre a areia fina  
**Bb**                                                          **C**                                          **F**  
 Dois mundos distintos são  
**Bb**                                                          **F**  
 Deixe o seu destino agir  
                          **Dm**                                                  **Bb**  
 Guiar seu coração

**Fm**                                                                                                  **C#**                  **D#**  
 Por sobre as árvores viver  
**Fm**                                                                                                  **G#**  
 A família ver crescer  
                                                                          **C#**                                  **Bb**  
 Viver assim traz tanta paz

**D#**                                                          **G#**                                          **Bb**  
 Ter coragem. recomeçar  
**D#**                                                          **G#**                                          **Bb**  
 Com toda sua força  
**D#**                                                          **G#**                                          **Bb**  
 Reconstruir um novo lar  
                          **D#**                                                  **G#**                                                                  **F**  
 Na vida que segue perigos vai encontrar

**Fm**                                                                                                  **C#**  
 Palavras não curam a dor  
**Fm**                                                                                                  **G#**  
 De um coração que se partiu  
                                                                          **C#**                                  **F**                                  **Bb**  
 Mas não é o fim só basta crer
