

2step ft Lil Baby
Ed Sheeran

Intro:

Em G D G

C G C D

Em

I had a bad week

G D

Spent the evening pretending it wasn't that deep

G C

You could see in my eyes that it was taking over

G C

I guess I was just blind and caught up in the moment

D Em

You know you take all of my stress right down

G D

Help me get it off my chest and out

G C

Into the ether with the rest of this mess that just keeps us depressed

C

We forget that we're here right now

D Em

Cause we're livin' life at a different pace, stuck in a constant race

G D

Keep the pressure on, you're bound to break, something's got to change

G C

We should just be cancelling all our plans and not give a damn

G C

If we're missin' out on what the people think is right

D Em

Seein' through a picture behind the screen and forget to be

G D

Lose the conversation for the message that you'll never read

G C

I think maybe you and me

G C

Oh, we should head out to the place where the music plays

And then

Em

We'll go all night

G D

Two-steppin' with the woman I love

G C G

All my troubles turnin' up and when I'm on your eyes, electrified

C D Em

We ll keep turnin up and go all night

G D

Oh, we had dips and falls in our time

G C G

But we know what it feels to be low, then up, alone and loved

C N.C.

And all we need is us to go all

Em G D

Night, night

G C

Two-steppin with the woman I love

G

Night, yeah

C

All we need is us

Em

What do you reckon, is it just me?

G D

Words are weapons and occasionally they cut deep

G C G

Crisis of confidence, it tends to come when I feel the dark and I open my heart

C

If you don t see it, you should trust me

D Em

I feel like I ve got nothin left right now

G D

Except this beauty in her dress right now

G C

She got me feelin like the best and the rest are just less

G C

Then she needs, so we press play and step to the beat

D Em

Cause we re livin life at a different pace, stuck in a constant race
