

Celestial ft Pokemon
Ed Sheeran

G

You see tonight

Bm

It could go either way

D

A

Hearts balanced on a razorblade

G

Bm

We are designed to love and break

D

A

And to rinse and repeat it all again

G

I get stuck and the

Bm

World s too loud

D

And things don t look up

A

When you re going down

G

I know your arms are

Bm

Reaching out from

D

A

Somewhere beyond the clouds

G

You make me feel

Bm

Like my troubled heart

D

A

Is a million miles away

G

You make me feel

Bm

Like I m drunk on stars

D

A

And we re dancing out in the space

G Bm D A

G Bm D A

Celestial

G

You see the light shining

Bm

Through the rain

D

A thousand colors

A

In a brighter shade

G

Needed to rise

Bm

From the lowest place

D

There s a silver lining

A

That surrounds the gray

G

And I get lost

Bm

Will it come back round?

D

Things don t look up

A

When you re going down

G

I know your arms

Bm

They are reaching out from

D

G

We were made to be

Bm

Nothing more than this

D

Bm

That s what really matters

D

Let s make tonight go on and on
