

**Gold Rush**  
**Ed Sheeran**

I like this song off Ed s new album ... i couldn t see that anyone had uploaded anything so i thought i d put it up :)

the strumming is very simple and the muting/mild hitting of the guitar is easy too, i m sure you can work it out by listening to the song!!!

standard tuning, no capo  
timings approximate

**\*\*UPDATE\*\***

**E**            **F#m**            **A**  
I woke up, wiped the sleep out of my eyes  
          **E**            **F#m**            **A**  
She left a note I ll be back in 5  
          **E**            **F#m**            **A**  
Well, I m still waiting for that moment to arrive,

[Pre-Hook]

**C#m**            **A**            **B**  
I was told to put my job in front of you  
**C#m**            **A**            **B**  
But it won t hold me like you do

[Hook]

**E**  
But I do it for the love  
                          **F#m**

Waiting on the gold rush

**A**

Keep it on the edge  
Smoking on a roll up

**E**

When I see my friends

**F#m**

All they say is hold up

**A**

And remember the time

**E**

When we were in school

**F#m**

Listening to grown ups

**A**

Didn t learn a thing  
But then again you know what

**E**

You know how to sing

**F#m**

But you don t know anything

**A**

Other than that

**E**

So maybe you should learn to love her

**F#m** **A**

Like, like the way

**E**

Maybe you should learn to love her

**F#m** **A**

Like, like the way

**E**

Maybe you should learn to love her

**F#m** **A**

Like, like the way

**E**

And maybe you should learn to love her

**F#m** **A**

Like, like the way

You want to be loved

[Verse 2]

**E** **F#m** **A**  
I never told her that I liked

**E** **F#m** **A**

The way she dances slightly out of time

**E** **F#m** **A**

And pretends she knows the words

To a song she s never heard

**E** **F#m** **A**

But I tell her all the time

[Pre-Hook]

**C#m**        **A**        **B**

I was told to put my job in front of you

**C#m**                **A**                **B**

But it won't hold me like you do

[Hook]

**E**

But I do it for the love

**F#m**

Waiting on the gold rush

**A**

Keep it on the edge

Smoking on a roll up

**E**

When I see my friends

**F#m**

All they say is hold up

**A**

And remember the time

**E**

When we were in school

**F#m**

Listening to grown ups

**A**

**F#m**

**A**

Like, like the way

**E**

Maybe you should learn to love her

**F#m**

**A**

Like, like the way

**E**

Maybe you should learn to love her

**F#m**

**A**

Like, like the way

**E**

And maybe you should learn to love her

**F#m** **A**

Like, like the way  
You want to be loved
