

Midnight

Ed Sheeran

CAPO 3er TRASTE!!!

Well, good morning, day
What a way to start the day
With everything laid out
Here on the pillow like a friend

If I could catch your every flick of light
I'd catch your all and everything
I wager that nobody's ever felt the way we feel
And I ask you to be all the life
I knew for every second of our ups and downs
They turned around like grass upon the wheel
Like grass upon the wheel

Well, I get lost inside my head
In this chaos, you're my calm
And I will find my feet again
Cause even the worst days of my life will always end

At midnight in your arms
At midnight in your arms

Sorry I missed your call
It was hidin' from the sun

And you know, when you r? free to talk

G D C

I won t miss it for the world, no, I won t

G D

I could not wish for more in life

C

Than just to hear, to when you smile

G D

I could go blind and I ll still know your scent

C

Whenever you d appear

Em

I have moments when I doubt myself

C

But feeling low should still be felt

G D

It s natural to be consumed with unrelentin fear

Am
