River (feat. Eminem)
Ed Sheeran
             Em
I ve been a liar, been a thief
Been a lover, been a cheat
    C#m/B Em
All my
         sins need holy water, feel it washin over me
  C#m/B Em
A little one, I don t want to admit to something
                           C#m/B
If all it s gonna cause is pain
                  G6
Truth in my lies right now are falling like the rain
            C#m/B
So let the river run
Em
                                             G6
He s coming home with his neck scratched to catch flack
                                 C#m/B
Sweat jackets and dress slacks, mismatch
On his breast jackets is sex addict
And she just wants to exact revenge and get back
It s a chess match, she s on his back like a jetpack
 C
She s kept track of all his internet chats
     C#m/B
                         F:m
And guess who just so happens to be moving on to the next?
                                              Am
Actually, just shit on my last chick and she has what my ex lacks
Cause she loves danger, psychopath
                                       C#m/B
And you don t fuck with no man s girl, even I know that
                                     G6
But she s devised some plan to stab him in the back
Knife in hand, says the relationship s hanging by a strand
So she s been on the web lately
                                         C#m/B
Says maybe she ll be my Gwen Stacy, to spite her man
                               G6
And I know she s using me to try to play him, I don t care
```

Hi Suzanne, but I shoulda said Bye Suzanne after the first night, but tonight

```
\mathbf{Em}
I ve been a liar, been a thief
Been a lover, been a cheat
     C#m/B Em
                                  G6
           sins need holy water, feel it washin over me
All my
   C#m/B Em
A little one, I don t want to admit to something
                            C#m/B
If all it s gonna cause is pain
                  G6
Truth in my lies right now are falling like the rain
            C#m/B
So let the river run
Em
                                    G6
One night stand turned into night stayin
                                                    C#m/B
              C
It was cold, some lights gram, y all be hung tight and
He found out, now she feels deserted and used
 Cause he left, so what? He did it first to her too
Now how am I supposed to tell this girl that we re through?
It s hard to find the words, I m aloof, nervous and suited
When it s too hurt but what you deserve is the truth
               G6
                    C
                                                             C#m/B
Don t take it personal, I just can t say this in person to you
                                G6
So I revert to the studio like Hole In The Wall diners
                                C#m/B
Don t have to be reserved in a booth
                                             G6
I just feel like the person who I m turnin into is
                                                        C#m/B
                                           Am
Irreversible, I prayed on you like it s church at the pew
And now that I got you I don t want you
Took advantage of my thirst to pursue
Why do I do this dirt that I do?
                                              G6
```

Cause now with her in the womb

Get on my soapbox and preach, my sermon in speech

Detergent and bleach is burned in the womb

```
We can t bring her in this world, shoulda knew
To use protection fore I bit into your forbidden fruit
Fuck!
             Em

                                        C#m/B
Always the bridesmaid, never the bride hey
What can I say, if life was a highway
This sequel s an enclave, I ll be swerving in 5 lanes
                        C#m/B
Speeds at a high rate, like I m sliding on ice made
Thats what I made, came at you sideways
                        C#m/B
I can t keep my lies straight, What I made you terminate my baby
                                    C#m/B
This love triangle angle left us in a wrecked tangle
What else can I say, it was fun for a while
Bet I really would ve loved your smile
Didnt really wanna
But fuck it, whats one more lie to tell an unborn child
I ve been a liar, been a thief
