

Salt water  
Ed Sheeran

CAPO 4TO TRASTE!!

**Am** **F**  
There s still so far to go

**C**  
And I can t feel my toes

**G**  
When the rain soaks through the heels

**Am**  
And slips to the sole

**F**  
Yeah, the blades are two feet tall

**C** **G**  
I wade in green, I m moving forward to where God only knows

**Am** **F**  
Feel the wind s harsh refrain

**C**  
Like the clouds grip my face

**G** **Am**  
Saying it s alright to run from all this pain

**F**  
Oh, and when it s time to go

**C**  
With one last breath that s in my lungs

**G**  
I ll scream, It s all for love

**F**  
I ll scream, It s all for love

**C** **F**  
Come and kiss me, salt water

**C** **G**  
Oh, finally, I feel at, three or four degrees

**C** **F**  
I m free in salt water

**C** **G**  
Embrace the deep and leave everything

**Am**  
It was just a dream

**F**  
I can see it up ahead

**C**  
Where the sky meets the ground

**G** **Am**

And after that there s only moving grey

**F**

I am filled up with regret

**C**

**G**

With things I did or never said, just leave that well alone

**C**

**F**

Come and kiss me, salt water

**C**

**G**

Oh, finally, I feel at, three or four degrees

**C**

**F**

I m free in salt water

**C**

**G**

Embrace the deep and leave everything

**Dm**

It was just a dream

**G**

Ah-ah

**Am**

It was just a dream

**F**

Was it just a dream?

**Dm**

It was just a dream

**G**

Ah-ah

**C**

It was just a dream

**F**

Was it just a dream?

**Am**

**F**

Now I m standing on the edge

**C**

Gazing into Hell

**G**

Or is it something else?

**Am**

I just can t tell

**F**

When there s nothing left

**C**

I close my eyes and take one step

**G**

And say, Well, here it goes

**F**

Say, Well, here it goes

**C**

**F**

Come and kiss me, salt water

**C**

**G**

Oh, finally, I feel at, three or four degrees

I m free in salt water

Embrace the deep and leave, everything

It was just a dream
