Save Myself
Ed Sheeran

```
G            D        Em                  C
I gave all my oxygen to people that could breath
    G            D           Em              C
I gave away my money and now we don t even speak
   G            D              Em      D      C
I drove miles and miles, but would you do the same for me?
     G   D   G
Oh ho-o-onestly

G            D           Em          C
Offered off my shoulder just for you to cry upon
G            D           Em              C
Gave you constant shelter and a bed to keep you warm
G            D              Em      D      C
They gave me the heartache and in return I gave a song
         G      D      G
Its goes o-o-on and on

C            G          D            G
Life can get you down so I just numb the way it feels
   C          G          D              Em
I drown it with a drink and out of date prescription pills
    C                  D          Em     D      C
And all the ones that love me they just left me on the shelf
            A7
My farewell
            Am7                    Am7 G/B C   D/F# G
So before I save someone else, I ve got to save myself

  G            D          Em          C
I gave you all my energy and I took away your pain
      G            D        Em          C
 Cause human beings are destined to radiate or dream
 G            D              Em     D      C
What line do we stand upon  cause from here it looks the same?
    G   D   G
And only scars remain

C            G          D            G
Life can get you down so I just numb the way it feels
   C          G          D              Em
I drown it with a drink and out of date prescription pills
    C                  D          Em     D      C
And all the ones that love me they just left me on the shelf
            A7
My farewell
```

```
          Am7                           Am7 G/B C    D/F# G
So before I save someone else, I ve got to save myself

          Em                    C
But if I don t, hen I ll go back
                    G
To where I m rescuing a stranger
        D                                   Em
Just because they needed saving just like that
                 C
Oh, I m here again
            G
Between the devil and the danger
        D
But I guess it s just my nature
            C
My dad was wrong
                        D
 Cause I m not like my mum
                    Em              D            C
 Cause she d just smile and I m complaining in a song
        A7
But it helps
          Am7                           Am7 G/B C    D/F# G
So before I save someone else, I ve got to save myself

C                 G              D              G
Life can get you down so I just numb the way it feels
  C               G              D                Em
I drown it with a drink and out of date prescription pills
    C                   D              Em      D     C
And all the ones that love me they just left me on the shelf
          A7
My farewell
          Am7                           Am7 G/B C    D/F# G
So before I save someone else, I ve got to save myself
            Am7                           Am7 G/B C    D/F# G
And before I blame someone else, I ve got to save myself
          Am7                           Am7 G/B C    D/F# G
And before I love someone else, I ve got to love myself
```
