Little lady

You get bullied in the worst way

Everyday is just another day that you gotta lose face

And you ve faced it all your life

And its time

To decided

To move on

From the playground to your work place

You got me by your side

And you know you ll be sleeping well

Although the night

You say I m the

Only thing you need

In the bottle Imma be

You take a few of me

Just to try to sleep

Ebm

Tell me if Im wrong

F#m

Tell me if Im right

Where were the clocks at?

When she really needed hands

Where was the love at?

When she really needed man?

She took her rucksack

And headed to the motherland

And tried to comeback

But no they wouldn t understand

So little lady tries to yop herself

And grabs me from the upper shelf

She says i m the only thing she needs

And she really needs to sleep

Stop little lady!

You ve taken way too much of me!
