

Sycamore

Ed Sheeran

F C G
Sycamore in the summer, bearing leaves
F C G
Swing, you're pushing our daughter underneath
F C G
Flowers bloom in the garden, sway in breeze
F C G
Just imagine a world where we could be

Am7 C
Right now in the waiting room emotions running wild
G
Worried 'bout my lover and I'm worried 'bout our child
Am7 C
Part of me was always in denial
G
It's gonna take a little while

F C G
But in our story, love in, love out
F C G
We are glorious-us
F C G
But in our story, love in, love out
F C G
We are glorious-us

F C G
Sycamore bringing shade from beating sun
F C G
Nothing more than a word, a smoking gun
F C G
What a puzzle is this to be in love
F C G
To be planting your roots, then dig them up

Am7 C
Waiting on professionals to tell you how it is
G
What's he gonna say after, I think you better sit
Am7 C
Brace yourself, something's about to hit
G

It s gonna take a little while

F C G
But in our story, love in, love out

F C G
We are gloriou-us

F C G
But, in our story, love in, love out

F C G
We are gloriou-us
