

U.N.I

Ed Sheeran

Verso 1:

E

I found your headband on my bedroom floor

C#m

The only evidence that you d been there before

A

And I don t get waves of missing you any more

E

They re more like tsunami tides in my eyes

Never getting dry, so I get high

Smoke with the days, never sleep with the light on

Weeks pass in a blink of an eye and I m still drunk at the end of the night

C#m

A

I don t drink like everybody else

I do it to forget things about myself

E

Stumble and fall with head spin I got

My mind s with you but my heart s just not

Pré-Refrão:

F#m

A

So am I close to you anymore if it s over

F#m

A

B

And there s no chance that we ll work it out

Refrão:

E

That s why you and I, ended over U.N.I

C#m

A

E

And I said that s fine, but you re the only one that knows I lied

E

You and I, ended over U.N.I

C#m

A

E

And I said that s fine, but you re the only one that knows i lied

Verso 2:

E

Everybody said that we d be together forever but I know that I never wanna
settle

down, come around

Break up the love like Lego now

C#m **A**
Never wanna turn into another like you

Sleep with my thoughts, and starts with my views

E
Everything s great but everything s short

Like you live in your hall and I live in my tour bus

E
Now I m in the position to be another stalker

That everything I say always seems to sound awkward

C#m **A**
Like our last kiss it was perfect

We were nervous, on the surface

E
And I m always saying everyday that it was worth it

Pain is only relevant if it still hurts

I forget like an elephant or we can use a sedative

And go back to that day we fell in love

Just on our first kiss

Pré-Refrão:

F#m **A**
So am I close to you anymore, if it s over

F#m **A** **B**
And there s no chance that we ll work it out

Refrão:

I d be there by now

C# **A** **E**
And maybe I can let myself down

C# **A** **E**
And,I m thinking I m unaware

C#
