Ed Sheeran

Intro: **E B F#m A** (and then harmonics on the 12th fret)  
**E B F#m A** (just hammer on **A**)

**E B F#m**  
I felt the fall on my breast  
**A E**  
At the bottom of my stomach  
**E B F#m**  
She put my hand on her chest  
**A E**  
While she looked into my eyes  
**E B**  
You rescued me  
**F#m A E B F#m**  
And called up these words in threes  
**A F#m**  
And you know I can't forget it  
**F#m A F#m**  
And 10 months on you liberate truth  
**F#m A F#m**  
See, I was wrong on how I hate you  
**F#m A B**  
And it's the worst thing that I did

**(B) C#m**  
When I read through you  
**B**  
You weren't translated  
**A**  
So I looked up love in the Yellow Pages  
**F#m A E**  
So I'd be free from it

**E B F#m A** (and then harmonics on the 12th fret)  
**E B F#m A** (just hammer on **A**)

**E B**  
See, all this truth sparks lies in me  
**F#m A**  
Just to demonstrate, aggravate sympathy  
**E B**  
The key is just to ignore  
**F#m A F#m**  
Even if this time has made me unsure  
**F#m A F#m**  
And 12 months on I'm back in my mood  
**F#m A F#m**

See, I got drunk and said I loved you
