                     C#
Oh, it s a mystery to me
                      F#
         C#
We have a greed with which we have agreed
                           G#
And you think you have to want more than you need
  F#
                   G#
Until you have it all you won t be free
[Chorus]
    F#
                         C#
Society, you re a crazy breed
                G#

[Verse]
          C#
                             G#
                                                 C#
When you want more than you have you think you need...
                                  F#
And when you think more than you want your thoughts begin to bleed
                   G#
I think I need to find a bigger place

                                     G#
                                                          Bbm
Because when you have more than you think you need more space
[Chorus]
Society, you re a crazy breed
                G#
Hope you re not lonely without me...
   F#
                   C#

SOLO:
[Verse]
                      G#
                                          C#

                  F#
But if less is more, how you keeping score?
                       G#

                G#
                                 Bbm
Kinda like you re starting from the top, you can t do that...
[Chorus]
   F#
                      C#
Society, you re a crazy breed
              G#
Hope you re not lonely without me...
Society, crazy indeed
Hope you re not lonely without me...
   F#
                     C#
Society, have mercy on me
              G#
Hope you re not angry if I disagree...
   F#
Society, crazy indeed
              G#
