

The Ship Song

Eddie Vedder

G **D**
Come sail your ships around me

C **G** **D**
And burn your bridges down.

G **D**
You are a little mystery to me

C **G** **D**
Every time you come around.

C **G** **D**
We talk about it all night long

C **G** **D**
We define our moral grounds.

Em **G**
But when I crawl into your arms

C **G** **D**
Everything comes tumbling down.

G **D**
Come loose your dogs upon me

C **G** **D**
And let your hair hang down.

G **D**
We make a little history baby

C **G** **D**
Every time you come around.

C **G** **D**
Your face has fallen sad now

C **G** **D**
For you know the time is nigh

Em **G**
When I must remove your wings

C **G** **D**
And you, you must learn to fly.

G **D**
Come sail your ships around me

C **G** **D**
And burn your bridges down.

G **D**
You are a little mystery to me

C **G** **D**
Every time you come around.

G **D**
Come loose your dogs upon me

C G D

And let your hair hang down.

G D

We make a little history baby

C G D

Every time you come around.
