

**When It All Got Good**  
**Eddie Vedder**

**C D G Em7**

For Every 100 years  
There are 50 years of darkness

**C D G Em7**

And the last 25  
it had our share of shocking

**C G C G**

All the successive days  
when the sun shined only on the top of the clouds

**C G C D**

All the oppressive days  
feeling lonely in a crowd

**G Em7 G Em7**

Couldn't have told me  
Oh, back then  
That we would someday feel (loved?)

**G Em7 C D**

To be so in Love with life  
As deeply as we are now

**Am D Am D**

Never thought we would  
Never thought we could

**G Em7**

I'm glad we made it  
Oh, I'm sooo glad we made it  
So glad we made it

**C D G**

til when it all got good

**Am D Am D**

Never thought we would  
Never thought we could

**G Em7**

I'm glad we made it  
Oh, I'm sooo glad we made it  
So glad we made it

**C D G**

til when it all got good
