INTRO **D**

D

How did I get here?

A

G

Sitting alone on the windowsill

D

They say I m going somewhere

A

but I ve got nothing but

G

time to kill

D

and I m waiting

A

G

because there s nothing that I can do

D

I m just waiting

A

G

till I ve broken through

It shouldn t be easy

but they say it s not too hard

Chase the dreams that keep you from sleeping

there s no distance too far

but I m waiting

til my dreams come into view

I m still waiting

A G

D

It feels like wasted time

G

and it s hard to keep believing

A

in the promises that brought me here tonight

D

But apathy aside,

G

The memories we re making

keep me searching for

Bm

A

what I expect to find

D

Across the line

(Same as first verse)

I m bridging the distance

One step up the bill with every night

Got both eyes on the horizon

and the ribbon s in sight

It s a long way

a distant mountain left to climb

but I know one day

my stars will align

(Same as first chorus)

It feels like wasted time

and it s hard to keep believing

in the promises that brought me here tonight

But apathy aside,

The memories we re making

keep me searching for

what I expect to find

Across the line

Bm **G**

People say

D

that time will fly

A

and I ll be fine

Bm **G**

So while I m here

D

Wasting time

The kindest critics keep me believing

Bm

that tomorrow,

A

G

I can race across the line

(Play the bottom three strings 4,5,6, then resume hammering on D)

(Same as first chorus)

It feels like wasted time

and it s hard to keep believing

in the promises that brought me here tonight
But apathy aside,
The memories we re making
keep me searching for
what I expect to find
Across the line
