

**Hum The Tune Acoustic**  
**Eddplant**

okay, so I submitted version 2 chords for regular Hum The Tune, then I got the album and realised that it s a different version on there so... I m gonna submit it here as the acoustic version. Tabbed from the chords that Ed told me via Youtube comment. :P

Standard Tuning with a capo on 5TH FRET.  
All chords are relevant to capo.

Chords Used:

**Am** - 012300  
**C** - 010230  
**G** - 300023  
**F** - 012300/ 112331

Intro: **Am**, **C**, **G** x2

Verse 1:

**Am**                      **C**                      **G**  
Sometimes you write a song that you can t sing  
**Am**                                      **C**                                      **G**  
cause the subject matter raises something that you kept in the dark  
**Am**      **C**                                      **G**  
Well maybe you ll sing her name  
**G**                      **Am**                                      **C**  
maybe it doesn t really matter what you say  
**G**    **F**  
because you ve said now you can t sing it out loud

Chorus:

**Am**                                      **C**                                      **G**  
If it needs to be said then say it  
    **G**  
If it needs to be sung don t hesitate  
**Am**    **C**  
But if you wrote it and now you regret it  
                                    **G**  
well hum the tune  
**Am**                      **C**                                      **G**  
Na na na na na na na  
**Am**                      **C**                                      **G**
