Cm

Cigarette ash like wildfire

G#

Burning holes in the night

G#

Open scars cut like barbed wire
White lies flying high like a ceasefire

Cm

Dropping flags on the shoreline

G#

This is as far as I can feel right

G#

Cos what you don't know
Can haunt you

Cm

And all we ever wanted

D#9

Was sunlight and honesty

G#

Highlights to want to repeat
Let's get away from here and

Cm

Live like the movies do

D#9

G#

I won't mind when it's over
At least I didn't think for a while

Cm

So let's run
Make a great escape

D#9

And I'll be waiting outside for the getaway

G#

It doesn't matter who we are

G#

We'll keep running through the dark

Cm

And all we'll ever need is another day

D#9

We can slow down cos tomorrow is a mile away

G#

And live like shooting stars

G#

Cos happy endings are just a phase

Cm

Sunsets on power lines

G#

Making a break for the other side

G#

Heading out to where that sunshine
45 millimeter rolling like we lost time

Cm

Polaroids and outcast

G#

Rather burn out young than grow up fast

G#

And we could be forever future-bound

Cos all I need is time and now and I could leave this past behind me

Cm

And all we ever wanted

D#9

Was sunlight and honesty

G#

Highlights to want to repeat
Let s get away from here and

Cm

Live like the movies do

The end credits they roll

This bridge was built over kerosene

But we can watch it
