If I were free
                             Am
I would run into battles with flowers and hugs
And bow at the boots of our well-oiled thugs
Yes, if I were free
C Am G
         F
If it were me
                              Am
I would yell out I love you to all I passed
I would disrobe and disco and rip off my mask
Yes, if I were free I d be the U that crossed the I to simply be
Minding our reflections at the bottom of the sea
What did you see?
          G
                    Am
I saw that you and I forever have been free
The light became too heavy and I fell into a dream
            E7
What did you dream?

                                 Am
          G F
I dreamed a wind that would sweep
                 Am
Every castle made of sand
Out across the old far holy land
Oh, if this were free
C Am
        G
If this were free
                             Am
We d be free of the terror of the graves
And fear masquerading as the brave
