If I Were Free
Edward Sharpe and the Magnetic Zeros
[Intro]
B G#m F# E B F# G#m (x2)
[Verse]
B G#m F#
If I were free
                             G#m
I would run into battles with flowers and hugs
And bow at the boots of our well-oiled thugs
              G#m
Yes, if I were free
B G#m F# E
If it were me
                              G#m
I would yell out I love you to all I passed
I would disrobe and disco and rip off my mask
                                                  G#m
Yes, if I were free I d be the U that crossed the I to simply be
Minding our reflections at the bottom of the sea
What did you see?
          F#
                     G#m
I saw that you and I forever have been free
The light became too heavy and I fell into a dream
            Eb7
What did you dream?
B G#m F# E B G#m B G#m
                                      G#m
                           E F#
B G#m
          F# E
I dreamed a wind that would sweep
                 G#m
Every castle made of sand
Out across the old far holy land
                G#m
Oh, if this were free
B G#m
         F#
If this were free
                             G#m
We d be free of the terror of the graves
                        F#
And fear masquerading as the brave
```

В F# G#m B F# G#m I woke upon a pig of red, white and blue The circus got too heavy so we fell into the zoo F# What did you feel? I felt the fear that every queer does in his head First thing to starting over, I made sure I was dead What do you dream? C#m B F# Eb7 C#m B G#m Eb7 F# G#m Swimming with ancients, laughing, tired of getting lost F# We took our left, remember, when we leaned upon the cross F# What did you see? F# G#m I saw that you and I forever have been free The light became too heavy and we fell into a dream
