

## Bad News

### Eels

Artist: Eels

Title: Bad News

Album: None

Tabbed by Callum Innes, Doncaster England - 30.6.01

This is my favourite Eels song...It is not yet on any of the albums, but  
It s brilliant.

**F#                    C#                    G#                    F#**

Guess I m doing something wrong  
Never feel right in these shoes  
Pocket full of matches and a head full of flame  
I ve got to warn you that I m bad news

**Bbm   C#/B   C#   C#/B   x2**

**F#                    C#                    G#                    F#**

She tucks me in and then she screams  
One day you will have to choose  
Either take care of me or take care of you  
And don t pretend your not bad news

**Bbm   C#/B   C#   C#/B**

**F#                    C#                    G#                    F#**

Come on now I ll take you home  
You have got nothing to lose  
But stick around long enough and you ll find out  
I am nothing but bad news

**F#                    C#                    G#                    F#**

You can never change where your from  
No matter I will accuse  
Gonna get with a better life  
And one day I won t be bad news

**Bbm                    C#/B                    C#                    C#/B**

It s the same everyday when I wake up  
It s the same in the way that you gave me up

**F#                                    C#                    G#                    F#**

In the middle of a swan dive

**F#                    C#**

And I was soaring down

**G#                    F#**

Perfect and slow.

Cheers!
