

**Man Up**  
**Eels**

As far as I can tell this is an incredibly simply song. Anyway here you go, I think you can pick it up from here.

Man Up  
Eels

Capo 2

**C**                    **G**                    **F**                    **G**

In my heart of hearts I know it well  
Been giving myself the soft sell  
Anyone can see that i ve been running away  
Not facing the day that s here

**C**                    **G**

It s time to man up

**F**                    **G**

I m man enough  
It s time to man up  
I m man enough  
I m man enough for you  
It s time to man up

The phone is off, the blinds are down  
Me and my heart are out of town  
The sign is hammered up Do not disturb  
Don t say another word to me

It s time to man up  
I m man enough  
I m man enough for you  
It s time to man up  
I m man enough  
I m man enough for you  
It s time to man up

In my heart of hearts I know it well  
I hit the ground hard when I fell  
Not licking wounds but more like sewing them up  
Man it was rough for me

But it s time to man up  
I m man enough  
I m man enough for you  
It s time to man up

I m man enough

I m man enough for you

It s time to man up
