Smarter
Eisley
Capo 2
If I had one wish it d be
For you and all your friends that didn t like me
And if I had one wish it d be
That we d had danced more at that apocryphal wedding
If I sound angry, I m sorry
This body can only cry for so long
And if you want to blame me, then go on
I m smiling now cause I m smarter than you think
D Em A
      I m smarter than you
 D Em A
         I m smarter than you think
Em D G A
               D
And I apologize for not telling you that my
Halo was cut from paper
Sliced from the fibers that made up all the parts
That we were together
                      D
And even though I miss you, I m thankful
It s obvious that this one was futile
So put your hands together and clap for
The painful choice you ve made cause it s right
D Em A
      I m smarter than you

(Into the sea you fell in love with the reflection of yourself)
You are the narcissist
You re everything you saw in me
(I felt the ocean s grip I swam away to watch you drift
You failed to see I m smarter than you think
