

**Stops**

**Elbow**

The chord progression is as follows although a capo on 2 can also be used to give the sound as the album recording (i prefer without)

Chords used:

**Em** (022000)  
**C#m** (x46654)  
**Am** (x02210)  
**C** (x32010)  
**F#m** (244222)  
**F** (133211)  
**G** (355433)  
**D** (xx0232)

Verses:

**Em** **F#m**  
I can t undo the day  
**C#m** **C**  
It won t go, wont go under the rug  
**Em** **F#m**  
I pull out the stops  
**C#m** **C**  
And you, you pull the plug

Middle 8:

**Em** **F G F**  
(played quickly)  
These are soberer days and I know it can t be  
**Em** **F G F C**  
But I ll miss you the way, you miss the sea

Chorus:

**D D Am**  
Don t look down  
**Am** **D D Am**  
Keep staring like you ve never seen the stars  
**Am** **D D Am**  
If you need me to remind you who you are  
**Am**  
Little blossom there s the shiniest soul  
**Em**  
Just behind those eyes

(The end of the chorus needs an extra chord but cant for the life of me think  
wat it is)

Rest of the song follows same pattern:

No longer my affair  
Well I can t go there just yet  
So I ve come to love and trust those friends  
That are holding your net

Falling off used to mean  
Maybe grazing a knee  
And I ll miss you the way you miss the sea

(Just)Don t look down  
Keep staring like you ve never seen the stars  
If you need me to remind you who you are  
Little blossom there s the shiniest soul  
Just behind those eyes

While I won t second guess  
What you re thinking of me  
I will miss you the way, you miss the sea.

(Just)Don t look down  
Keep staring like you ve never seen the stars  
If you need me to remind you who you are  
Little blossom there s the shiniest soul  
Just behind those eyes
