

Awake

Electric Guest

Might be a little inaccurate in regards to the correlation between chords and words but should otherwise be accurate and easy to suss out.

Awake
by Electric Guest

Intro/Verse (m means minor)

C#	B	E	F#m
Back to sin again, must be fate			
the wait was all day			
Black acts to amend, at the gate			
awaiting to state			

Something perished, past, and gone away
and nothing ever lasts that hesitates

Chorus

Cause I know these days are calling out the simple
 A
 sets in the red skyline
 C#m B F#major
 These days they call the wind its gone
 season of the wake
 They are calling out and shooting in a silent cave
 we set the sails again alone
 season of awake

Verse 2 (same chords as verse 1)

Back from holiday, in my head
the ocean calling
Magic in the grave at the end
the old way falling

Something calling, asking to create
the only other lasting love to make

Chorus (same chords **C# B F#m A / C#m B F#** major)

Cause I know these days are calling out the simple
sets in the red skyline
These days they call the end its gone
season of the wake
they are calling out and shooting in a silent cave
we set the sails again alone

season of awake

(Awake by Electric Guest " page 2)

Bridge

G#

Cause there s something within

B

C#

there is something within

All, My, Friends

There s something within

because of something within

I m awake

you re all my friends

I ve been long, enough awake

alone, enough, awake

Repeat bridge

song slows down

C# G# F# / C# G# F# E#

We ve got a feeling of the day

last time wasn t what we made but we make away

love is our only true escape

fear is nothing washed away awake away awake

last time wasn t what we made but now we make away
