The Lights Go Down
Electric Light Orchestra

Intro: (**C F G**)

```
 C        F  G          C                  F
One day,  I gotta get out of here,
  G          C                  F  G         C      F  G
I gotta make everything clear,  I gotta see you.
   C    F   G          C                  F
I know,  The way that I feel is wrong, so wrong.
      G    Am       G F     G           C      F  G
But I gotta carry on,    When you ain t around.

   C                       Am
I believe things are going wrong,
        Dm                   G
And the nights goes on and on,
          C                   Am
All your dreams have flown away,
        Dm                 G      C
And the sun won t shine today.

              F              G     C
The lights go down (I want you baby)
              F              G     C
The lights go down (I need you baby)
             F
The lights go down
           Am        Dm   G
And there s no one around.

C F G

   C   F  G           C              F
I know,  you re waiting so close to me,
  G         C               F  G        C      F  G
But how will you ever see, as time rolls away.
   C   F   G        C                 F
Lonely,  but trying to be so proud,
     G    Am        G F    G          C     F  G
And just as I turn around, the lights go down.

   C                       Am
I believe things are going wrong,
        Dm                 G
And the nights go on and on,
```

```
        C                        Am
All your dreams have flown away,
        Dm                G      C
And the sun won t shine today.

(Refrão) Three times
```
