

Grand Machine No 12
Electric President

Electric President - Grand Machine No. 12
Chords by: Federico Quagliata

Capo 1st fret

Intro: **C F**

C
This damn machine, this damn machine,
F
this broken head doesn't work.
So they're selling it off again

C
These crooked legs, these twisted arms,
F
these tired feet lost their worth.
Soon they'll dismantle them

Am Em F G
But we're all just part of some giant grand machine
Am Em F G
Too big to really understand
Am Em F G
But we'll do our jobs till we break down and fall

C F

Now we just sleepwalk.
We drift through the week.
A dead procession always dragging its feet. Well, come on

Our hands are swollen.
We all need to sleep.
But there's no time, just stitch us up so we'll keep

We're all just part of someone's elaborate plan
Chess pieces in some grandiose scheme
But we'll do our jobs till we break down and fall
