```

With the silence of the night she s coming  
Bringing peace of mind, now she s coming  
A reflection at her deep dark eyes  
Makes believe that love will never die

Come, open your eyes it gets dark  
We re safe and sound now with our feet on the ground  
The sky twirls its veil in a rainy afternoon  
Are you coming soon?

Come, Whispering your mellow voice for me to sleep  
Holding me in your arms, all my pain is relieved  
Black haired girl, a serene beauty  
gasping for air, my suffered child  
Let me drown in your blissful kiss

As you re dancing with me I close my eyes, I m mesmerized  
That soft light that is seldom seen, in yourself has always been.  
A sleepwalker in a dream who never should wake  
A crystal feather so fragile won t break  
The hypnotic trance

Na hora do Refrao vc usao F assim, [ela cai bem no Silence]:

```
E | |-----| |  
B | |--6----| |  
G | |--5----| |  
D | |-----| |  
A | |-----| |  
E | |-----| |
```

Na parada de enfase na nota D, nas cordas 2 e 3.
