

Baby Come On
Elemeno P

This is my first tab, so if you don't like it, sorry.
It's pretty easy, and it doesn't take long to learn.
Have fun.

Here's a little story that should be told
With a whole lotta heart and a little bit of soul
Well we're all stuck in dead end jobs
But the party's out the back
So Baby come on!

Verse 1 (C#, G#, F#, F#, G#, Bb)

Tired of the friction
I could use a little fiction
Just an ounce of satisfaction
Take a break from all this social medication

Apathy and entropy
Is standing right in front of me
And laughing through my TV screen
I am thinking of the rent

Woah oh oh oh

Chorus (C#, G#, F#, F#, G#, Bb)

Let's go Lady
Come on go crazy
It's on now Baby
Come on
So Baby come on

Verse 2 (C#, G#, F#, F#, G#, Bb)

They're dancing in the backstreets
I'm still staring at the spreadsheet
I am filling out the fax sheet
I am wrestling with MYOB

Freedom at my fingertips
Tonight we're on an ego trip
On Monday we can pay for it
I'm thinking about the rent

Woah oh oh oh

Bridge (C#,F#,G#)

What you got, What you need, It clashes
See the world through tinted glasses
Start a riot, You ll need some matches
Getting Ready, Ready Steady Go
My credits good to ride on
Tonight our dreams are neon
Don t pull the plug on me it s
On and on and on

Working on the solo and will have it posted soon.
You just go to the pre-chorus and then chorus after the solo.
Apart from that, that s about it. Thanks
