

**Baby Come On**  
**Elemeno P**

This is my first tab, so if you don't like it, sorry.  
It's pretty easy, and it doesn't take long to learn.  
Have fun.

Here's a little story that should be told  
With a whole lotta heart and a little bit of soul  
Well we're all stuck in dead end jobs  
But the party's out the back  
So Baby come on!

Verse 1 (**Bb, F, Eb, Eb, F, G**)

Tired of the friction  
I could use a little fiction  
Just an ounce of satisfaction  
Take a break from all this social medication

Apathy and entropy  
Is standing right in front of me  
And laughing through my TV screen  
I am thinking of the rent

Woah oh oh oh

Chorus (**Bb, F, Eb, Eb, F, G**)

Let's go Lady  
Come on go crazy  
It's on now Baby  
Come on  
So Baby come on

Verse 2 (**Bb, F, Eb, Eb, F, G**)

They're dancing in the backstreets  
I'm still staring at the spreadsheet  
I am filling out the fax sheet  
I am wrestling with MYOB

Freedom at my fingertips  
Tonight we're on an ego trip  
On Monday we can pay for it  
I'm thinking about the rent

Woah oh oh oh

Bridge (**Bb, Eb, F**)

What you got, What you need, It clashes  
See the world through tinted glasses  
Start a riot, You ll need some matches  
Getting Ready, Ready Steady Go  
My credits good to ride on  
Tonight our dreams are neon  
Don t pull the plug on me it s  
On and on and on

Working on the solo and will have it posted soon.  
You just go to the pre-chorus and then chorus after the solo.  
Apart from that, that s about it. Thanks
