

Wild Child
Elen Levon

Hey guys! This is my first ever tab submission. I figured out the chords by ear so

I hope they are correct. Anything that you find incorrect or you think sounds better please do leave a comment or correction. Please rate! Thanks!

NO CAPO is needed.

Standard tuning.

The whole song consists of only 4 chords, Bb, F, Dm and C, played throughout the whole song. However the order of the chords change.
