

**The World Is Ours**  
**Eleven Past One**

My post ever.. so here we go!

I couldn't find any other chords for this song but it's pretty basic actually.

Chord progression is

**C - G - Em - D**

do this for the whole song, seemed to work for me. CAPO at 2 or 4 whatever you prefer -  
I use 4.

I haven't figured out the bridge yet... I will update soon!

Cheers.

CHORUS:

Riding a wave, chasing the sun, only gets better when you're with someone  
Someone that you love who takes your breath away,  
We're wild and we're young, we're living for today

VERSE 1:

Tell me where you come from, you look like your hope's gone  
I can tell you need someone today, Get into the rhythm, forget all your  
problems, Why  
not let the waves wash them all away  
I know you came for the weekend, but girl there's no way you're leaving, this is  
where  
it begins, feels like we're stars in a movie, I'm Romeo you're my Julie, Just  
stop and  
take it all in.

CHORUS:

Riding a wave, chasing the sun, only gets better when you're with someone  
Someone that you love who takes your breath away,  
We're wild and we're young, we're living for today  
The World Is Ours

VERSE 2:

Drive up to the canyon, check out all the mansions, pretend we're in a phantom  
that'd be  
cool, Then back down to the ocean, swim out to the dolphins, we can have it all  
just me  
and you.  
I know you came for the weekend, but girl there's no way you're leaving, this is  
where  
it begins, feels like we're stars in a movie, I'm Romeo you're my Julie, Just

stop and  
take it all in.

CHORUS:

Riding a wave, chasing the sun, only gets better when your with someone  
Someone that you love who takes your breath away,  
We re wild and we re young, we re living for today  
The World Is Ours

BRIDGE:

Lets get lost in the fire light, there s only us tonight, we can talk from dusk  
till  
dawn. Swim free in a starlit sea, we will always be, forever young.

CHORUS:

Riding a wave, chasing the sun, only gets better when your with someone  
Someone that you love who takes your breath away,  
We re wild and we re young, we re living for today.
