

**On My Way**

**Eli Young Band**

Capo 2

I think this is about 90% correct. A little unsure at the end of the chorus, but I couldn't figure out something better.

**A**

**A**

Red light traffic standing still keeping me from you

**E**

Tough days in this town but this one will soon be through

**A**

Cause right around the bend on the porch there by the drive

**E**

There's an angel out there waiting to bring me back to life  
She always saves me from all of my crazy

**A**

Like a heads up penny lying on the ground she'll be

**D      A**

Shin - ing

**E**

Yeah with every little laugh and look she gets me

**D      A**

believing

**A**

There ain't a worry in my world that won't stop

**D    A**

fading

**A**

When she's next to me

**D                  A**

So I need to be on my way

(Same as first verse)

Red to green and finally I'm moving again  
Faster than this backbone should be traveling  
Up ahead I see her hand waiving in the air  
Faded cut back denim and tangled auburn hair  
She opens up the door  
All I want and more
