War On A Desperate Man
Eli Young Band

Just so I don t try to confuse you with fancy chord names, all you have to do is

keep the e and b strings open while playing the A and B chords (and maybe leave
the high e open when you re playing the C#m too, if it s barred).

(Also, keep in mind that the verses are in 7/4, so listen to the original if you

haven t already to know when to change chords.)

Asus2 Bsus4 E x2

```
         Asus2                 Bsus4  E
Between heaven and hell the devil in me,
Asus2                        Bsus4   E
Burned another branch on the family tree,
            Asus2                     Bsus4       C#m     Bsus4
You take the bottle from my hand the whiskey off my breath,
Asus2                        Bsus4     E
Tell me is there really still anything left,
          Asus2                Bsus4        E
There s a limit to livin  on Gods green earth,
Asus2                        Bsus4        E
I m still tryin  to figure what that s worth,
     Asus2                 Bsus4      C#m       Bsus4
Not makin  any choices I m just makin  mistakes,
Asus2                        Bsus4        E
Livin  in a world where the sinners are saints,
```

```
Asus2        E                        Asus2
How can I win when the battle keeps changing,
C#m         Bsus4        Asus2
Should I just lay down my gun,
E                            Asus2
Surrender to the demons I m facing,
C#m      Bsus4         Asus2
   Do I fight or do I run,
              F#        E               A
Is this the moment I finally take a stand,
             Bsus4                   E
And win this war on a desperate man.
```

```
      Asus2                      Bsus4     E
Been praying to God to let me hear his voice,
Asus2                   Bsus4        E
Could take me now if that s his choice,
```

```
Asus2                                Bsus4   C#m   Bsus4
Who s it gonna be who makes me realize,
          Asus2                      Bsus4   E
There are days I don t even wanna open my eyes.

Asus2       E                        Asus2
How can I win when the battle keeps changing,

Should I just lay down my gun,
E                            Asus2
Surrender to the demons I m facing,
C#m     Bsus4         Asus2

Is this the moment I finally take a stand,
          Bsus4                 E
And win this war on a desperate man.
