By @JodiFRANSEXY

Done this by ear, probably not 100% but sounds good enough to me

NO CAPO, STANDARD TUNING, and take it away...

into

-Verse1

I wanna know is there ever gonna be a change

I gotta know oh could I ever change?

We talk but nothing ever makes a difference

curl up into a ball salt tears in my mouth

Now all my doubt seems to collide no matter what I say I can't get up and try

-Chorus

Coz you don't, you don't, you don't, you don't, you don't, you don't
you don't care, if you did you'd be standing right there x2 right there.

C G Am F

-Verse2

(Josh)

And I wanna know is there ever gonna be a change, let me explain oh I feed of
change

I explode but it doesn't ever make a difference

running into a wall salt tears in my mouth

Now all that fear comes back around maybe you have to lose yourself just to
be found

But everything just seems so hard everything feels out of order when will I

get out the dark

come on god give me an answer

-Chorus

C G Am

Coz you don t, you don t, you don t, you don t, you don t, you don t

F

you don t care, if you did you d be standing right there

same chords as chorus

You said you loved me but you re just not here x6

You re just not here, are you standing right there? you should be standing right there.

END ON **C** :)
