I trust your judgment, I like the things you say
It s common sense, I could take three times a day

Chorus Oh, Mr Medicine, I will take anything

What do you recommend?

Oh, Mr Medicine, I need my vitamins

Will I feel better then?

Verse (type 1) Oh, Mr Medicine, I feel so much better

My friend s a pessimist, But you still impress her

If you need evidence, Then I ll write you a letter

I ll lick the stamp and post it, Just so that you can notice

Verse (type 2) First drop and you get up, There s a pile of dirty laundry

I know you ll clean it up, You re the man to do it for me

And then I saw, That the patient has improved

Calling sick, Has become a lame excuse
