VERSE
             C#
And when we started out
            F#
Out in those I love you days
The days that seemed so bright
You brightened up inside
           F#
The side of you I loved
            Bbm
                       Ab
The love we had you crucified
                     C#
Now every time we laugh
It seems to make me cry
And when we say the truth
We re only telling lies
            C#
But when we started out
             F#
Out in those I love you days
The days that seemed so bright
    Ebm
But I can t make it right
