

**When The Tide Creeps In
Ellen and The Escapades**

When the tide creeps in " Ellen and the Escapades

My very first tab wooh!! I've started simple, I think this is pretty much right but have a listen to the song just to be sure I've got the chord changes in the right place. Hope this helps. #9786;

VERSE 1

G **D**
The last time that I looked up you were singing
C **G**
Exchanging whistles with the wind
G **D**
But then you lost your heart for fearing
C **D** **G**
That no other love would let you in

CHORUS

C **G** **D**
And ooooooooooh , I was feeling your pain
C **G** **D**
Ooooooooooh , I always hoped that I'd see you again
C **D**
So I tried to follow you round but they swallowed you
G **D** **C**
down into the sea bed
C **D**
You were just finding out how to crawl out. when you
G **D** **Em**
threw me in the deep end,
C **D**
keep me from sleeping , when the tide creeps in

VERSE 2

So you asked for shelter and you got rain clouds
C **D** **G**

To always love, love, it gives you worth

itâ€™ll sink like a stone

And when the tide breaks itâ€™ll wash you, over me, like
D
rain
