Lonely thoughts,
They seep into mind, into me
Pushing deep
Wash the dirt,
A hard days work, know my place
On my own
No poison in my bones
On my own
This is where I build my home
My home
This will always be my home
This will always be my home
I work until its late
Will again close the gates
I look in the window and I gaze on my face
Every line and every abrasion
This took my life to make
This took my life to make
On my own
No poison in
my bones
On my own
This is where I build my home

My home
My home
I need someone to hold
I need someone to hold
On my own (x7)
My home
This will always be my home
This will always be my home
