In My City
Ellie Goulding

```
Em                          G
If I ever had a wish in the whole world
Em                                      G
I wouldâ€™ve listened to my brother when he spoke to me
Em                              G
And I never wouldâ€™ve played with my conscience
        Em                      G
In the fields where I was in their company

Em                      G
But You gave me wings and I used them
            Em          G
I used them, I used them on my youth
Em                      G
And You gave me wings and I used them
            Em                  Am
I used them, and I wonâ€™t lose them

Em                      Am
Now I found my feet, count to 1, 2, 3
G                               Em
And Iâ€™m taking off tonight, now Iâ€™m free
Em                      Am
As I walk my feet on the cold concrete
G                   Am
And I and I and I

Chorus:

Am              G               Em      Am
I can feel my dreams when Iâ€™m in my city
Am              G           Em      Am
I fall on my knees for my, for my city
                    G           Em      Am
Weâ€™re going off the dream in my, in my city
G                   Em
And thatâ€™s where Iâ€™ll stay
G                       Am
And thatâ€™s where Iâ€™ll stay
In my city

Rolling down the streets in my new town
With the lights blinding and my heart played down
I think Iâ€™ll get a job with stealing peopleâ€™s thunder
But the folks back home Iâ€™ll make them vouch

You gave me wings and I used them
```

I used them, I used them on my youth
Yeah, You gave me wings and I used them
I used them, I don't wanna lose them
I don't wanna lose them

I can feel my dreams when I'm in my city
I fall on my knees for my, for my city
We're going off the dream in my, in my city
And that's where I'll stay
And that's where I'll stay
In my city

```
   Em            G              Am
Shoulders ache for wanted wings
     Em          G        Am           G
My city shakes, the fear in me
```

I can feel my dreams when I'm in my city
I fall on my knees for my, for my city
We're going off the dream in my, in my city
And that's where I'll stay
And that's where I'll stay
In my city
