The End Ellie Goulding

go easy... this is my first ever attempt. also i did this using power chord and couldn t be bothered afterwards to work out what chords major and what chords minor.... this will have to do... sorry :)

B G#
We ve only ever kissed lying down

we ve only ever kissed lying down

B

We ve only ever touched G#

When there s no one else around

B G#

I can be elusive if you want me to

В

I m not being intrusive

G#

I just wish I knew the truth

C#

As to why

G#

I wait for you

C# B

Longer than the average person would

C#

And why

G#

I think about you

F

More than I think one should

D# E

Our body s fit together like a makeshift puzzle

C# C#

And It s clear to see why you puzzle me

D#

And you turn your frame

Ľ

And you whisper my name

C# F:

As though I am a burden

B G#

Cus I m making up for last time

n# F

And I m making up for you

B G#

And I m waking up from last night

```
D#
                      Е
And I m waking up with you
B G#
So what s new
B G#
So what s new
I am at your house
So I belong to you for now
Trying to impress you
But lord I don t know how
      G#
I can be a statue if you want me to
I m not being difficult
G#
I just need to know the truth
C#
As to why
I m wanting you
And I would take you away if I could
And why I m still here
     F#
It s something I still haven t understood
D#
Our hands rest together like pieces of paper
But they re always blank when I hold your hand
And it gave you a fright
When I stayed the night
And you gave yourself to me
В
                      G#
Cus I m making up for last time
And I m making up for you
                       G#
And I m waking up from last night
And I m waking up with you
B G#
```

So what s new B G# So what s new C# G# It s not the end It s not the end F# So don t let us pretend G# В Cus I m making up for last time And I m making up for you G# And I m waking up from last night D# And I ${\tt m}$ waking up with you B G#

So what s new

So what s new

B G#
