The End
Ellie Goulding

go easy... this is my first ever attempt. also i did this using power chord and
couldn t be bothered afterwards to work out what chords major and what chords
minor.... this will have to do... sorry :)

B   G#
We ve only ever kissed lying down
B
We ve only ever touched
  G#
When there s no one else around
B G#
I can be elusive if you want me to
      B
I m not being intrusive
 G#
I just wish I knew the truth

C#
As to why
     G#
I wait for you
  C#   B
Longer than the average person would
  C#
And why
        G#
I think about you
E   F#
More than I think one should

D#   E
Our body s fit together like a makeshift puzzle
C#   C#
And It s clear to see why you puzzle me
D#
And you turn your frame
E
And you whisper my name
C#   F#
As though I am a burden

B   G#
Cus I m making up for last time
D#   E
And I m making up for you
B   G#
And I m waking up from last night

```
D#                              E
And I m waking up with you
B  G#
So what s new
B  G#
So what s new

B
I am at your house
  G#
So I belong to you for now
B
Trying to impress you
      G#
But lord I don t know how
B         G#
I can be a statue if you want me to
B
I m not being difficult
  G#
I just need to know the truth

  C#
As to why
     G#
I m wanting you
C#      B
And I would take you away if I could
C#  G#
And why I m still here
  E   F#
It s something I still haven t understood

D#                              E
Our hands rest together like pieces of paper
C#
But they re always blank when I hold your hand
D#
And it gave you a fright
E
When I stayed the night
C#                     F#
And you gave yourself to me

B                    G#
Cus I m making up for last time
D#                   E
And I m making up for you
B                      G#
And I m waking up from last night
D#                   E
And I m waking up with you
B  G#
```

So what s new
B G#
So what s new

C# G#
It s not the end
B
It s not the end
F#
So don t let us pretend

B   **G#**
Cus I m making up for last time
D#   **E**
And I m making up for you
B   **G#**
And I m waking up from last night
D#   **E**
And I m waking up with you
B G#
So what s new
B G#
So what s new
