Verse 1

```
F                C                Gm         Bb
When a look into your eyes all I see are lies - come on Louann
F                C                Gm         Bb
When you hold on to my hand where you gonna take this man - come on Louann
F                C                Gm         Bb
You know Iâ€™m trying to maintain but your excuses are in vain - come on Louann
F                C                Gm         Bb
If thereâ€™s a reason why Iâ€™m here well you better make it clear - come on
Louann
```

Chorus

```
Am                Bb
Some day weâ€™ll laugh together
Am                Bb
And relive the past together
Gm                Eb
Ah but tonight Iâ€™m feeling so bad
Gm                C
You look so good and Iâ€™m so sad
```

Verse 2

```
Repeat the same chords as in the 1st verse
F                C                Gm         Bb
I could never break your heart and you knew that from the start - didnâ€™t you
Louann
F                C                Gm         Bb
You had no other place else to go so you put on a good show - knock me out
Louann
F                C                Gm         Bb
You made me think I was the one you robbed my love without a gun - didnâ€™t you
Louann
F                C                Gm         Bb
Can you make an honest stand when you youâ€™re living hand to hand - come on
```
