Niagara Falls
Elliott Murphy

Niagara Falls (Everybody Knows) â€" Elliott Murphy

Verse:

```
              C/G         F      G
Received your postcard
                  C/G        F     G
Mailed to the wrong address
                          C/G         F        G
You said everything is happening so fast
                  C/G        F       G
And your hair is mess
                    C/G        F      G
You been drinking too much liquor
                      C/G        F      G
Youâ€™re gonna stick to the wine
                        C/G
You say thereâ€™s a reason for all of this

        F        G                                  C/G    F     G
Youâ€™re gonna write me a nice long letter  when you got the time
```

Chorus:
```
C/G          G     Em                        F
Everybody knows when you take off your clothes
C/G          G        Em                    F
Everybody knows  you got a tattoo that shows
            Dm                        G
Me and you in barrel going down Niagara Falls
```

Verse:
```
                        C/G         F       G
Youâ€™ve been stripping in the nightclub
                  C/G        F        G
Working on the street
                        C/G        F       G
Itâ€™s all a sex money mindgame
                    C/G        F      G
Weâ€™re just a piece of meat
                        C/G        F      G
Youâ€™ve been driving into Buffalo
              C/G       F     G
Cruising the bars
                          C/G
I said â€œBaby, when theyâ€™re through with you
```

```
             F              G                      C/G        F       G
There’re gonna pickle your heart and put it in a jar•

Chorus:
C/G          G    Em                          F
Everybody knows when you take off your clothes
C/G          G      Em                          F
Everybody knows  you got a tattoo that shows
            Dm                          G
Me and you in barrel going down Niagara Falls

Vere:
                         C/G           F     G
I received your Telex ‟ from ITT
                              C/G          F      G
You said everything‚s happening so slow
                    C/G         F    G
What’s to become of me?
                              C/G        F     G
And you’ve been doing too much jogging
                    C/G         F     G
And you’re all shook up
                    C/G         F    G
You can’t stay off the telephone
                    C/G         F     G
And your goodbyes are abrupt
                    C/G         F     G
(You better hang it up!)

Chorus:
C/G              G    Em                             F
Everybody knows when you take off your clothes
C/G          G      Em                             F
Everybody knows  you got a tattoo that shows
            Dm                          G
Me and you in barrel going down Niagara Falls
```
