There were paper roses all down the street

But now I'm on my own - so far gone

C# **G#** **Eb**
It's the day after Valentine's Day

There's nothing left that's gonna help me ease the pain

All my cards are gone but my broken heart remains
C# **G#** **Eb** (A)
Everything changed the day after Valentine's Day

She said if I start kissing you I may never stop

But what we got didn't mean that much

Except this memory that keeps haunting me

Before you left me behind

When love was mine

It's the day after Valentine's Day
