**F#** **B**  
Let us cross over the river  
**F#**  
Let us rest in the shade of the trees  
**F#** **B**  
Let us gaze on to eachother  
**F#**  
Let us fall upon our knees

**Ebm** **B**  
Let us kiss the longest kiss  
**F#** **C#**  
That would last a thousand years  
**F#** **B**  
A century, A lifetime  
**F#**  
And my love would still be here

**F#** **B** **F#** **F#**

**F#** **B**  
And I trembled at your closelets  
**F#**  
In the emptiness that lies above  
**F#** **B**  
And in some way I feel protected  
**F#**  
From this life by your love

**Ebm** **B**  
So let us stop all this motion  
**F#** **C#**  
And let us stand forever still  
**F#** **B**  
With our arms around eachother  
**F#**  
And our soul wrapped in our will

**F#** **B** **F#** **F#**

**E** **C#m**  
Locked inside a wall

**B** **F#**  
And then the rain, it come to call  
**E** **C#m**  
Now youâ€™re locked inside my mind  
**B** **C#**  
And youâ€™ll be there all the time
