Verse

F#
The sister of sunlight
B7
Comes to my lonely life
F#
Bearing the crosses I hung

I hung on my lonely wife
Bbm
And the anchor told me
Ebm
If I prayed by the river
G#m7
That the sweet sound of water
C#7
Would always go with her

F# **Bbm/F#** **Ebm**
All across the havens to the waterfall
E
They told me I would meet her there
G#m7
Inside those icy walls
E
But how on earth in this universe
B **C#7**
Can they forgive me of my pains
F# **G#m7**
For all across the havens
B **B/B G#m7** **C#7**
I must stumble locked in chains

Interlude: **F# B7 F# B7**

Then the mother of mercy

Showed me her stable

Safe in her cradle

And the water withdrew

Leaving me standing
C#7
On a road leading through
