

**Grey Seal**  
**Elton John**

**B**                    **D**                    **G**  
Why s it never light on my lawn

**C**                    **G**                    **D**  
Why does it rain and never say good-day to the new-born

**B**                    **D**                    **G**  
On the big screen they showed us the sun

**C**                    **G**                    **D**  
But not as bright in life as the real one

**C**                    **G**                    **D**  
Its never quite the same as the real one

**B**                    **F#**  
And tell me grey seal

**A**                    **E**  
how does it feel to be so wise

**B**                    **F#**  
To see through eyes

**A**                    **E**  
That only see what s real

**B F# A E B**  
Tell me grey seal

**B**                    **D**                    **G**  
I never learned why meteors were formed

**C**                    **G**                    **D**  
I only farmed in schools that were so worn and torn

**B**                    **D**                    **G**  
If anyone can cry then so can I

**C**                    **G**                    **D**  
I read books and draw life from the eye

**C**                    **G**                    **D**  
All my life is drawings from the eye

Your mission bells were wrought by ancient men  
The roots were formed by twisted roots  
Your roots were twisted then  
I was re-born before all life could die  
The phoenix bird will leave this world to fly  
If the phoenix bird can fly then so can I
